PROFILE

Results-driven Full Stack Developer with expertise in the MERN stack and a passion for creating innovative web applications. Skilled in both front-end and back-end development with a strong understanding of UI/UX principles. Proficient in HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS, and Bootstrap. Committed to delivering high-quality, scalable, and efficient web solutions that enhance user experiences.

PROFESSIONAL EXPERIENCE

Professional Experience
Frontend Developer
Webotal IT Global Pvt Ltd | October 2023 - Present
- Developed and optimized user-facing features using React.js, enhancing application performance and user experience.
- Collaborated closely with UX/UI designers to implement responsive design features, ensuring cross-browser compatibility and a seamless mobile experience.
- Integrated RESTful APIs and services into the front end, improving the application's functionality by 25%.
- Implemented state management using Redux for efficient data handling and improved application scalability.
- Actively participated in code reviews, ensuring code quality and adherence to best practices in front-end development.

Freelance Full Stack Developer
Self-employed | 2023
- Developed and maintained multiple web applications using the MERN stack, improving client business operations.
- Designed and implemented responsive user interfaces using React.js and Tailwind CSS, enhancing user experience by 30%.
- Integrated APIs and third-party services, resulting in a 20% increase in app functionality and performance.

PROJECTS

E-Commerce App
Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js)
- Developed a full-featured e-commerce application with distinct user roles for sellers and customers.
- Implemented features for adding, removing, and updating products, and managing orders.
- Deployed the application on Netlify, achieving 500+ user interactions per week.
- URL: https://mern-mini-cart-app.netlify.app/

Laundry Service App
Tech Stack: MERN, Tailwind CSS
- Built a comprehensive web application for laundry service businesses to manage orders and customer interactions.
- Utilized React.js for a dynamic, responsive front-end, and Node.js/Express.js for a robust back-end.
- Achieved a seamless user experience with integrated payment processing and order tracking.
- URL: https://laundry-cart-app.netlify.app/

Weather App
Tech Stack: React.js, Tailwind CSS
- Developed a weather forecasting application providing real-time weather updates and forecasts.
- Leveraged React.js for a responsive UI and integrated external APIs for accurate weather data.
- *URL- https://weather-app-tabraiz.vercel.app/*

TODO App
Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS
- Features:
  - Add, update, and delete tasks with real-time updates.
  - User-friendly interface designed with React and styled using Tailwind CSS.
  - Implemented secure user authentication using JWT (JSON Web Token).
- URL: https://todo-react-app-mern.netlify.app/
